| **Difficulties** | ● Understanding the English content  
● Setting up VR tools | none | ● Setting up VR tools  
● Some people felt dizziness afterwards | ● Confusing controls (difficult to control the thumb stick)  
● Some people felt dizziness afterwards | ● Hygiene (since a lot of people wear the headsets)  
● Some elderly people felt dizziness afterwards |
| **What can be improved or added** | ● Need an English version of the Setup  
● Need a Nepali version of the games | ● Need to add more scenarios (earthquake, flood, first aid) | ● The scenario is too short, try to make it longer | ● Add difficulty levels  
● APDRC should make audio instructions  
● Add more scenarios, players, freedom of choice, rewards and punishments | ● Need to add more scenarios (earthquake, flood, first aid)  
● Need to improve controls |
| **APDRC response to the difficulties** | ● Created an English tutorial video that explains how to set up the VR tools step by step  
● Plan to create banners, information boards, flyers, etc.. to make the use of our VR tools easier | | | Purchased Hygiene masks to wear under the headsets |
